# Meghalaya Residents Safety & Security Act portal will monitor schemes: Conrad Sangma

OUR CORRESPONDENT

**SHILLONG, SEP 11**—/ Meghalaya chief minister Conrad Sangma recently launched the online portal of the Meghalaya Residents Safety and Security Act. He said the implementation of the digitised system will not only ensure the safety and security of the residents, but it will also act as a strong intelligence gathering system for authorities to monitor and act, based on the intelligence inputs gathered from the online database. Also present on the occasion were Home Minister, Lakhmen Rymbul, MLA, Mawsynram, H. M Shangglang, Chief Secretary D.P. Wahlang, DGP L.R. Bishnoi, DC, East Khasi Hills, I. Laloo, SIO, NIC, Timothy Dkhar, senior Government officials and headmen of the various localities.

The web-based system is first being rolled out in seven localities of Shillong. The first phase is being implemented in the localities of Nongrim Hills, Lalapang, Nongmynsong, Nongrah, Pohkseh, Riak Laban and Wahdiengleng.

The Meghalaya CM further said the digitisation and preparation of the online database for the MRSSA could also be beneficial for monitoring and better implementation of other services and programmes of the Government.

He said that the digitisation process will connect more than 6,000 villages in the state to the online system. The digitised database can then be utilised for better service delivery in critical areas such as healthcare. He said that the digitisation will aid in effective monitoring of the

schemes and programmes of the government.

"This kind of exercise is something that is going to help us not just in terms of the safety and security but also it will help us to digitise things and even help us to monitor the different services, schemes, and programmes implemented by the government, and we will be able to do it in a much better manner. We want to expand this digitisation not just for MRSSA but also for other government services," the CM said.

Sangma said that the initial rollout of the online system will cover the relevant towns and localities on priority before expanding in a phased manner across the State.

The chief minister also complemented the efforts of the headmen of different localities for working together with the administration and exhorted them to

partner with the Government for successful implementation of the programme. During his address, home minister Rymbul

underlined that safety of the people is of paramount importance and acknowledged the various proactive steps taken by the dorbar shonghs for the security of the residents in their respective localities.

The Government of Meghalaya has introduced the Meghalaya Resident Safety & Security Act 2016 with the purpose to ensure and enhance security of the citizens of State by making careful and thorough examination of tenants residing in the state. The implementation of Act will prevent anti-social elements from gaining shelter in the state and to create a control mechanism to check illegal infiltration or illegal migrants who might be coming and residing in the localities. In order to implement the Act,

the government in collaboration with NIC Meghalaya has taken the initiative to design and develop an online application that will enable the citizen (landlords/tenants) to register themselves with prior verification from the local authorities.

Accordingly, the web application has been designed and developed to enable the landlords, tenants, local authorities of the localities and sub-localities to register and enter the details of the residents (i.e., landlords/tenants) rental units as provision in the Form B of the Act. The URL of the web application is <http://megssa.nic.in> and it can be accessed from PCs, laptops, tablets, and smartphones. A mobile app has also been designed and developed to enable the landlords and tenants to register from their smartphones.

**Salient features of the online system:**

- EPIC is being used to identify the landlord.
- Tenants can be identified by Epic, Driving license, Pan, Aadhaar, Student ID, Passport No. etc.
- The web application is made responsive i.e., it can be easily accessed from PCs, laptops, tablets, mobile phones, etc.
- Provision is made to upload mandatory documents as per the Act.
- Well defined workflow is provided so that data flows from one level to another electronically with a provision to track the status at every level.

With the implementation of the web application, the state Government will have the digitised database of basic data of all the landlords/tenants who are residing in Meghalaya.
